

Product datasheet

Anti-E. coli heat labile toxin B antibody [BB12] ab37204

1 References

概述

| | |
|-------|--|
| 产品名称 | Anti-E. coli heat labile toxin B抗体[BB12] |
| 描述 | 小鼠单克隆抗体[BB12] to E. coli heat labile toxin B |
| 宿主 | Mouse |
| 特异性 | Escherichia coli heat-labile enterotoxin B-chain. |
| 经测试应用 | 适用于: ELISA, WB |
| 种属反应性 | 与反应: Escherichia coli |
| 免疫原 | Recombinant Beta-chain of E. coli heat-labile enterotoxin. |

性能

| | |
|------|---|
| 形式 | Liquid |
| 存放说明 | Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles. |
| 存储溶液 | Preservative: 0.1% Sodium Azide Constituents: PBS, pH 7.2 |
| 纯度 | Protein G purified |
| 克隆 | 单克隆 |
| 克隆编号 | BB12 |
| 同种型 | IgG2b |

应用

Our [Abpromise guarantee](#) covers the use of **ab37204** in the following tested applications.

The application notes include recommended starting dilutions; optimal dilutions/concentrations should be determined by the end user.

| 应用 | Ab评论 | 说明 |
|-------|------|---|
| ELISA | | Use at an assay dependent dilution. |
| WB | | Use at an assay dependent dilution. Predicted molecular weight: 14 kDa. |

靶标

相关性

Escherichia coli heat-labile enterotoxin (LT) is the causative agent of traveller's diarrhoea, and it is also responsible for the deaths of hundreds of thousands of children per year in developing countries. LT is highly homologous in sequence, structure and function to cholera toxin (CT). Both toxins attack intestinal epithelial cells via specific binding to the branched pentasaccharide of ganglioside GM1 at the cell surface. LT is a plasmid-encoded, high molecular weight toxin, the crystalline structure of which revealed that it is composed of one A subunit (LTA) (27 kDa) and five non-covalently associated B subunits (LTB) (11.6 kDa each) forming a ring-like pentamer. The biological activity of the toxin is produced by the A chain, which activates intracellular adenylyl cyclase. The B chain has a membrane binding function. A receptor-binding antagonist which blocked the interaction of LT and CT with cell surface GM1 would potentially constitute a prophylactic drug conferring protection both against the severe effects of cholera itself and against the milder but more common disease caused by LT.

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <http://www.abcam.cn/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
