概述

说明

产品名称 Hydrogen Peroxide Assay试剂盒

样品类型 Serum, Plasma, Other biological fluids, Cell Lysate, Cell culture media

检测类型 Quantitative **灵敏度** > 0.04 μM 检测时间 1h 00m

产品概述 Hydrogen Peroxide Assay Kit ab102500 is a highly sensitive, simple, direct and HTS-ready

colorimetric and fluorometric assay for measuring H₂O₂ in biological samples.

In the hydrogen peroxide assay protocol, horse radish peroxidase (HRP) reacts with a probe and H_2O_2 to produce a product with color (λ max = 570 nm) and red-fluorescence (Ex/Em=535/587 nm).

The detection limit is 2 pmol per assay (or 40 nM concentration) of H_2O_2 in the sensitive fluorometric assay.

Hydrogen peroxide assay protocol summary:

- add standards and samples to wells
- add reaction mix and incubate for 10 min
- analyze with microplate reader

This product is manufactured by BioVision, an Abcam company and was previously called K265 Hydrogen Peroxide Colorimetric/Fluorometric Assay Kit. K265-200 is the same size as the 200 test size of ab102500.

The kit can perform 200 reactions by fluorometric method or 100 reactions by colorimetric method.

Hydrogen Peroxide (H_2O_2) is a reactive oxygen metabolic byproduct that serves as a key regulator for a number of oxidative stress-related states. Functioning through NF-kappaB and other factors, hydroperoxide-mediated pathways have been linked to asthma, inflammatory arthritis, atherosclerosis, diabetic vasculopathy, osteoporosis, neuro-degenerative diseases, Down's syndrome and impure system diseases.

Down's syndrome and immune system diseases.

Functional Studies - Hydrogen Peroxide Assay Kit (ab102500)

Vicente, Cl?udia S L et al., PloS one?vol. 10,4 e0123839., Fig 2, doi:10.1371/journal.pone.0123839

 $\rm H_2O_2$ neutralization of of Bursaphelenchus sp. isolates (high virulence B. xylophilus Ka4 and B. xylophilus T4, and low virulence B. xylophilus C14-5 and B. mucronatus Un1) after 24 hours exposition to $\rm H_2O_2$.

Error bars represent standard deviation. Different letters above the columns indicate significant differences (p < 0.05) between Bursaphelenchus sp. isolates H_2O_2 neutralization, according to post-hoc Duncan's test.

Our Abpromise to you: Quality guaranteed and expert technical support

• Replacement or refund for products not performing as stated on the datasheet

- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- · We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit https://www.abcam.cn/abpromise or contact our technical team.

Terms and conditions

• Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
