

Anti-Saccharomyces cerevisiae antibody ab19498

概述

| | |
|-------|---|
| 产品名称 | 抗酿酒酵母抗体 |
| 描述 | 兔多克隆抗体to酿酒酵母 |
| 宿主 | Rabbit |
| 特异性 | All antigens. |
| 经测试应用 | 适用于: WB |
| 种属反应性 | 与反应: Saccharomyces cerevisiae |
| 免疫原 | Tissue, cells or virus corresponding to Saccharomyces cerevisiae Saccharomyces cerevisiae. Whole intact Saccharomyces cerevisiae cells. |
| 常规说明 | <p>Antibody is useful for detection/removal of contaminants from recombinant preps.</p> <p>The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.</p> <p>If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&As</p> |

性能

| | |
|--------------------|---|
| 形式 | Liquid |
| 存放说明 | Shipped at 4°C. Upon delivery aliquot and store at -20°C. Avoid freeze / thaw cycles. |
| 存储溶液 | Preservative: 0.1% Sodium azide Constituent: 0.0268% PBS |
| 纯度 | Protein A purified |
| Primary antibody说明 | Antibody is useful for detection/removal of contaminants from recombinant preps. |
| 克隆 | 多克隆 |
| 同种型 | IgG |

应用

The Abpromise guarantee

Abpromise™承诺保证使用ab19498于以下的经测试应用

“应用说明”部分 下显示的仅为推荐的起始稀释度;实际最佳的稀释度/浓度应由使用者检定。

| 应用 | Ab评论 | 说明 |
|----|------|--|
| WB | | 1/100. Dilution optimised using Chromogenic detection. |

靶标

相关性

Saccharomyces cerevisiae also known as baker's yeast, is a genus of ascomycetes. They are normally diploid unicellular fungi that reproduce asexually by budding. Asci, containing four haploid ascospores, develop directly from the diploid vegetative cells by meiosis. After germination of the ascospores the haploid cells can reproduce vegetatively, or haploid cells of different mating type can fuse to form a diploid zygote. Most laboratory strains used are, in contrast to wild type yeasts, stable haploids.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.cn/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
