应用说明

Dot: Use at an assay dependent dilution.

ELISA: 1/600 - 1/2800.

IHC: Use at an assay dependent dilution.

WB: Use at an assay dependent dilution.

This product has been assayed against 1.0 ug of Rabbit IgG in a standard capture ELISA using p-nitrophenyl phosphate as a substrate for 30 minutes at room temperature. A working dilution of 1/600 to 1/2800 of the reconstitution concentration is suggested for this product.

Suitable for other phosphatase-antibody based enzymatic assays requiring extremely low background levels, absence of F(c) mediated binding, lot-to-lot consistency, high titer and specificity.

Not tested in other applications.

Optimal dilutions/concentrations should be determined by the end user.
