

Anti-CD62L antibody [EPR22188-297] ab218829

重组 RabMAb

2 图像

概述

产品名称	Anti-CD62L 抗体[EPR22188-297]
描述	兔单克隆抗体[EPR22188-297] to CD62L
宿主	Rabbit
经测试应用	适用于: Flow Cyt 不适用于: ICC/IF, IHC-P or WB
种属反应性	与反应: Rat
免疫原	Recombinant full length protein. This information is proprietary to Abcam and/or its suppliers.
阳性对照	Flow Cyt: Rat primary splenocytes.
常规说明	This product is a recombinant monoclonal antibody, which offers several advantages including: <ul style="list-style-type: none">- High batch-to-batch consistency and reproducibility- Improved sensitivity and specificity- Long-term security of supply- Animal-free production For more information see here . Our RabMAb [®] technology is a patented hybridoma-based technology for making rabbit monoclonal antibodies. For details on our patents, please refer to RabMAb[®] patents .

性能

形式	Liquid
存放说明	Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C long term. Avoid freeze / thaw cycle.
存储溶液	pH: 7.2 Preservative: 0.01% Sodium azide Constituents: PBS, 40% Glycerol (glycerin, glycerine), 0.05% BSA
纯度	Protein A purified
克隆	单克隆
克隆编号	EPR22188-297
同种型	IgG

应用

The Abpromise guarantee

Abpromise™承诺保证使用ab218829于以下的经测试应用

“应用说明”部分下显示的仅为推荐的起始稀释度;实际最佳的稀释度/浓度应由使用者检定。

应用	Ab评论	说明
Flow Cyt		1/500.

应用说明

Is unsuitable for ICC/IF,IHC-P or WB.

靶标

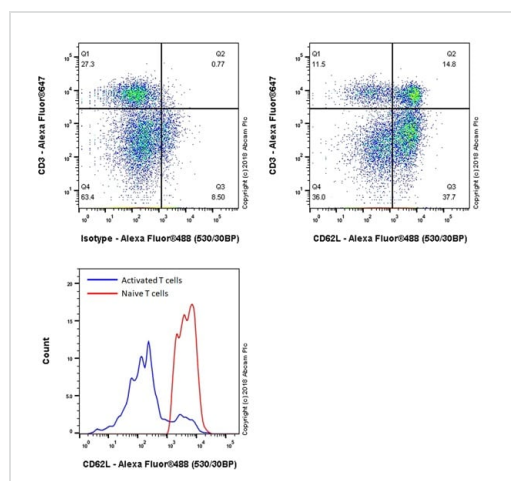

相关性

CD62L is a cell surface component that is a member of a family of adhesion/homing receptors. These play important roles in leukocyte-endothelial cell interactions. CD62L is composed of multiple domains: one homologous to lectins, one to epidermal growth factor, and two to the consensus repeat units found in C3/C4 binding proteins.

细胞定位

Cell Membrane; single-pass type I membrane protein.

图片

Flow Cytometry - Anti-CD62L antibody [EPR22188-297] (ab218829)

Flow cytometric analysis of rat primary splenocytes labeling CD62L with ab218829 at 1/500 dilution (top right panel), compared with a Rabbit IgG, monoclonal [EPR25A] - Isotype Control (**ab172730**) (Upper left). Goat Anti-Rabbit IgG H&L (Alexa Fluor® 488) (**ab150077**) at 1/2000 dilution was used as the secondary antibody.

Top panel: Cells were stained with Alexa Fluor® 647-conjugated CD3 and rabbit IgG (Left) or anti-CD62L RabMab (Right). Data shown was gated on viable cells.

Down regulation of CD62L on activated T cells (CD3+FSC^{high}, blue) compared to Naïve T cells (CD3+CD62L+, red) was shown on the bottom panel.

Why choose a recombinant antibody?

Research with confidence
Consistent and reproducible results

Long-term and scalable supply
Recombinant technology

Success from the first experiment
Confirmed specificity

Ethical standards compliant
Animal-free production

Anti-CD62L antibody [EPR22188-297] (ab218829)

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.cn/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
