## Product datasheet

## PE Anti-Melanoma gp100 antibody [EP4863(2)] ab246731

RabMAb

## 1 图像

#### 概述

产品名称 PE Anti-Melanoma gp100抗体[EP4863(2)]

描述 PE兔单克隆抗体[EP4863(2)] to Melanoma gp100

**宿主** Rabbit

**偶联物** PE. Ex: 488nm, Em: 575nm

经测试应用 适用于: Flow Cyt (Intra)

种属反应性 与反应: Mouse

免疫原 Synthetic peptide. This information is proprietary to Abcam and/or its suppliers.

阳性对照 Flow Cyt (intra): B16F10 cells.

常规说明 This product is a recombinant monoclonal antibody, which offers several advantages including:

- High batch-to-batch consistency and reproducibility
- Improved sensitivity and specificity
- Long-term security of supply
- Animal-free production

For more information see here.

Our RabMAb<sup>®</sup> technology is a patented hybridoma-based technology for making rabbit monoclonal antibodies. For details on our patents, please refer to **RabMAb**<sup>®</sup> **patents**.

The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.

If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&As

## 性能

形式 Liquid

**存放说明** Shipped at 4°C. Store at +4°C. Store In the Dark.

**存储溶液** pH: 7.40

1

Preservative: 0.02% Sodium azide

Constituents: 30% Glycerol (glycerin, glycerine), 1% BSA, PBS

纯**度** Protein A purified

**克隆** 单克隆

**克隆编号** EP4863(2)

**同种型** IgG

#### 应用

#### The Abpromise guarantee Abpromise™承诺保证使用ab246731于以下的经测试应用

"应用说明"部分下显示的仅为推荐的起始稀释度;实际最佳的稀释度/浓度应由使用者检定。

应用	Ab评论	说明
Flow Cyt (Intra)		1/5000.

功能 Plays a central role in the biogenesis of melanosomes. Involved in the maturation of

melanosomes from stage I to II. The transition from stage I melanosomes to stage II melanosomes involves an elongation of the vesicle, and the appearance within of distinct fibrillar structures. Release of the soluble form, ME20-S, could protect tumor cells from antibody mediated immunity.

组织特异性 Preferentially expressed in melanomas. Some expression was found in dysplastic nevi. Not found

in normal tissues nor in carcinomas. Normally expressed at low levels in quiescent adult

melanocytes but overexpressed by proliferating neonatal melanocytes and during tumor growth.

序列相似性 Belongs to the PMEL/NMB family.

Contains 1 PKD domain.

结**构域** The RPT domain is essential for the generation of the fibrillar matrix of melanosomes.

The lumenal domain is necessary for correct processing and trafficking to melanosomes.

翻译后修饰 A small amount of P1/P100 (major form) undergoes glycosylation to yield P2/P120 (minor form).

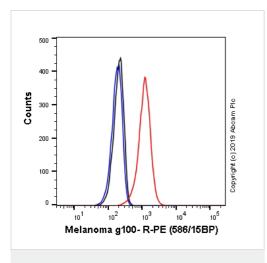

P2 is cleaved by a furin-like proprotein convertase (PC) in a pH-dependent manner in a post-Golgi, prelysosomal compartment into two disulfide-linked subunits: a large lumenal subunit, M-alpha/ME20-S, and an integral membrane subunit, M-beta. Despite cleavage, only a small fraction of M-alpha is secreted, whereas most M-alpha and M-beta remain associated with each other intracellularly. M-alpha is further processed to M-alpha N and M-alpha C. M-alpha C further undergoes processing to yield M-alpha C1 and M-alpha C3 (M-alpha C2 in the case of PMEL17-is or PMEL17-ls). Formation of intralumenal fibrils in the melanosomes requires the formation of M-alpha that becomes incorporated into the fibrils. Stage II melanosomes harbor only Golgimodified Pmel17 fragments that are derived from M-alpha and that bear sialylated O-linked

oligosaccharides.

N-glycosylated. O-glycosylated; contains sialic acid.

细胞定位 Secreted and Endoplasmic reticulum membrane. Golgi apparatus. Melanosome. Endosome >

multivesicular body. Identified by mass spectrometry in melanosome fractions from stage I to stage IV. Localizes predominantly to intralumenal vesicles (ILVs) within multivesicular bodies. Associates with ILVs found within the lumen of premelanosomes and melanosomes and particularly in compartments that serve as precursors to the striated stage II premelanosomes.

Flow Cytometry (Intracellular) - PE Anti-Melanoma gp100 antibody [EP4863(2)] (ab246731)

Overlay histogram showing B16F10 cells stained with ab246731 (red line). The cells were fixed with 4 % formaldehyde (10 min) and then permeabilized with 0.1 % PBS-Triton X-100 for 15 min. The cells were then incubated in 1x PBS containing 10 % normal goat serum to block non-specific protein-protein interaction followed by the antibody (ab246731) (1x  $10^6$  in  $100\mu$ l at 0.1  $\mu$ g/ml (1/5000)) for 30 min at  $22^{\circ}$ C.

Isotype control antibody (black line) was Rabbit IgG (monoclonal) Phycoerythrin (<u>ab209478</u>) used at the same concentration and conditions as the primary antibody. Unlabeled sample (blue line) was also used as a control.

Acquisition of >5,000 events were collected using a 50 mW Yellow/Green laser (561nm) and 586/15 bandpass filter.

This antibody gave a positive signal in B16F10 cells fixed with 80 % methanol (5 min) / permeabilized with 0.1 % PBS-Triton X-100 for 15 min used under the same conditions.

Please note: All products are "FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC PROCEDURES"

#### Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <a href="https://www.abcam.cn/abpromise">https://www.abcam.cn/abpromise</a> or contact our technical team.

#### Terms and conditions

· Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
