

Anti-Pseudorabies Virus antibody ab3534

★★★★★ [1 Abreviews](#) [7 References](#) [1 图像](#)

概述

产品名称	Anti-Pseudorabies Virus抗体
描述	兔多克隆抗体to Pseudorabies Virus
宿主	Rabbit
经测试应用	适用于: IHC-Fr
种属反应性	与反应: Pseudorabies Virus
免疫原	Tissue, cells or virus corresponding to Pseudorabies Virus.
阳性对照	IHC-Fr: Rat hypothalamus from animals infected by injection of PRV into the vitreous body of the eye.
常规说明	<p>The Life Science industry has been in the grips of a reproducibility crisis for a number of years. Abcam is leading the way in addressing this with our range of recombinant monoclonal antibodies and knockout edited cell lines for gold-standard validation. Please check that this product meets your needs before purchasing.</p> <p>If you have any questions, special requirements or concerns, please send us an inquiry and/or contact our Support team ahead of purchase. Recommended alternatives for this product can be found below, along with publications, customer reviews and Q&As</p>

性能

形式	Liquid
存放说明	Shipped at 4°C. Store at +4°C short term (1-2 weeks). Upon delivery aliquot. Store at -20°C or -80°C. Avoid freeze / thaw cycle.
存储溶液	Preservative: 0.05% Sodium azide Constituents: 0.1% BSA, 99% PBS
纯度	Protein A purified
克隆	多克隆
同种型	IgG

应用

The Abpromise guarantee

Abpromise™ 承诺保证使用ab3534于以下的经测试应用

“应用说明”部分 下显示的仅为推荐的起始稀释度;实际最佳的稀释度/浓度应由使用者检定。

应用	Ab评论	说明
IHC-Fr		Use a concentration of 1 µg/ml.

靶标

相关性

Pseudorabies virus (PRV) is a member of the neurotropic viruses known as alphaherpesviruses. PRV is primarily a disease of swine which serve as a reservoir for the virus and the principal source of natural infection for a diverse range of secondary hosts, including cattle, sheep, goats, dogs, cats, and many feral species. Humans and apes are refractory to PRV infection. PRV infects the epithelium of the host where it then spreads to axons of the peripheral nervous system (PNS). The virus opportunistically avails itself of the neuronal retrograde transport pathway which can facilitate transfer to the brain. This unique aspect of PRV allows it to be used as a powerful research tool to study neural connectivity and trace neuronal circuitry in the peripheral (PNS) and central nervous system (CNS).

Our Abpromise to you: Quality guaranteed and expert technical support

- Replacement or refund for products not performing as stated on the datasheet
- Valid for 12 months from date of delivery
- Response to your inquiry within 24 hours
- We provide support in Chinese, English, French, German, Japanese and Spanish
- Extensive multi-media technical resources to help you
- We investigate all quality concerns to ensure our products perform to the highest standards

If the product does not perform as described on this datasheet, we will offer a refund or replacement. For full details of the Abpromise, please visit <https://www.abcam.cn/abpromise> or contact our technical team.

Terms and conditions

- Guarantee only valid for products bought direct from Abcam or one of our authorized distributors
